SHANKAR M. DARUR

AI & Machine Learning Engineer | Full-Stack Developer | Founder, SEATSIP

Bagalkote, Karnataka, India • +91 93215 26724 • shankar04darur@gmail.com • linkedin.com/in/shankar-m-darur-26b521249 • github.com/wrld-of-Shanks

PROFILE

An engineer at heart, driven by curiosity, innovation and entrepreneurship — always building, always learning. Turns ideas into working products, from production RAG systems and full-stack web apps to founding SEATSIP, a café discovery and seat-booking startup launching August 2026, and regularly leads teams through hackathons and college technical events.

WORK EXPERIENCE

Software Development Intern — Agribid Private Limited (Agritech), Mumbai *Jan 2026 – Apr 2026*

- Built and shipped a production CMS with 20+ modules (pages, news, blogs, tenders, marketplace, testimonials, galleries) used by real site administrators.
- Developed a news aggregation/RSS module that auto-pulls and displays agriculture news from multiple sources; built Next.js frontends and Node.js backend modules integrated via REST APIs.

Founder & Software Developer — SEATSIP *Apr 2026 – Present*

- Building a two-sided café discovery and seat-booking marketplace (React Native, Node.js, PostgreSQL/Prisma, JWT, Google Sign-In); validated the concept directly with café-owner prospects ahead of an Aug 2026 launch.

PROJECTS

SEATSIP — Café Discovery & Seat-Booking Platform (seatsip.com) *2025 – Present*

- Two-sided marketplace: customers discover cafés, check live seat availability, book a table and pre-order food; owners manage seats, bookings and menus from an admin dashboard. React Native, Node.js, PostgreSQL/Prisma, JWT, Google Sign-In.

SPECTER — AI Legal Assistant (RAG) *2025*

- Full-stack Indian legal information platform with hybrid retrieval pipeline (BM25 + dense vectors + RRF fusion + cross-encoder reranking) over 59K legal chunks; auto-classifies 10+ legal scenarios (divorce, DV, bail, cyber crime, etc.) with tailored advice.
- Features document intelligence (OCR, clause extraction, risk scoring), a lawyer marketplace, legal templates and WhatsApp integration — retrieval-only architecture with optional OpenRouter web search fallback. React/TypeScript + FastAPI, ChromaDB, Sentence Transformers, MongoDB, Tesseract OCR; deployed on Render/Netlify.

EDUCATION

B.E., Artificial Intelligence and Machine Learning — Basaveshwar Engineering College (VTU), Karnataka *2022 – 2026*
CGPA 6.2/10 • Machine Learning, Deep Learning, NLP, Computer Vision, DSA, DBMS, Software Engineering

Class 12 (Pre-University) — Mohindar Singh Kabal Singh College *2020 – 2022*
61%

Class 10 (Secondary School) — Mohindar Singh Kabal Singh Highschool *2019 – 2020*
86%

SKILLS

Languages: Python, JavaScript, TypeScript, PHP, SQL, HTML, CSS

AI/ML: Generative AI, RAG, LangChain, Vector Databases, Sentence Transformers, NLP, Deep Learning

Frontend / Backend: React, React Native, Tailwind CSS • FastAPI, Node.js, Express.js, PHP

Data & Platforms: PostgreSQL, MySQL, SQLite, ChromaDB • Git/GitHub, Render, Netlify, Vercel, Firebase

Other: REST APIs, JWT Auth, CI/CD, Agile, Prompt Engineering, Semantic Search

Languages spoken: Kannada (native), English (B2 — IELTS Overall 6.0, Jul 2026)

CERTIFICATIONS & LEADERSHIP

- Supervised Machine Learning: Regression & Classification — Stanford Online (2026)
- DevOps, DataOps, MLOps — Duke University via Coursera (2026)
- Core Coordinator, TechTronix technical fest, Dept. of AIML, BEC (2025)
- Team Lead, WAVE 2.0 National-Level 24-Hour Hackathon, BEC-AICTE IDEA Lab (2023–24)
- 1st Prize, Tech Game, VENATUS College-Level Technical Fest (2024)
- Led a first-year team to compete nationally in line-follower robotics; coordinated a village outreach programme (300+ family survey, 110+ patient medical camp, plantation drive).
